PVD & NCVD Coating

Chemical vapor deposition (CVD) coating services with hard and film coating. Utilizes CVD reactor with 1925 degrees F temperature. Works with materials including titanium nitride and titanium carbide. Suitable for manufacturing applications such as wear-resistant coating, carbide milling and turning inserts, wear components, and plastic processing tools. Provides de-coating services.

Physical vacuum deposition (PVD) services for polished mold surface, medical component, decorative film, tribological, and wear applications. Offers sputtering, evaporation, lubricating, and abrasion resistant capabilities. Works with coating materials such as titanium nitride, titanium carbo-nitride, and zirconium nitride. Provides density, micro-cracking elimination, and electrolytic and electro-less plating post-processes.

Chrome Plating

Our Chrome Plating are preferred by a number of customers, operational in a variety of industries such as automobile industries, aircraft components manufacturing and so forth. We provide these services using the highest quality raw material available in the industry. In addition we also employ latest technology and state of the art machinery to yield durable nature of plating to the products being used. Customers can specify their particular requirements and the type of electroplating desired for the items. Acclaimed for durability this electroplating is a valuable feature that enhance the overall product quality of the item. Our versatile team of professionals can cater with the exact needs of our customers and provide the relevant electroplating services within the stipulated time frame. Besides this we also make sure that the rendered services are in compliance with the industry standards and provide optimum product utility.

Tin Plating

We have gained huge recognition for our Tin Plating services. Our engineers use authentic and unadulterated plating chemical for the process of electrolysis that is a most common method used for plating metal onto a substrate. Tin plating is used to safeguard both ferrous and non ferrous surfaces. In this process, plating metal undergoes reduction to the plating bath. The plating is so perfectly executed that the resultant finish is of excellent quality.

Hardchrome Plating

We are a reputed organization offering Hard Chrome Plating Service to a variety of industries. Catering with the needs of our esteemed clients we offer these services with minute attention to detail. Useful in enhancing the overall appearance and utility of the products chrome electroplating improves and prolongs the durability of an item. This plating is provided by our talented electroplating processing team using the latest and the most advanced equipment available in the industry. This facilitates most functional use of the items, on which the electroplating is being done by way of imparting maximum resistance to corrosion. We take complete note of the desires of our customers and can provide effective solutions for addressing their business related necessities in the most effective way. Clients have always found our services highly reliable and up to the mark and depended on us for their needs since a long period of time.

About Us

Established in the year 2010, Om Sai Platers are Providing of PVD & CVD Coating, Nickel Plating, Chrome Plating, Tin Plating, Silver Plating, Copper Plating, Bronze Plating, Electroless Nickel Plating (ENP), Electro Polishing (EP), Hardchrome Plating.

We are supported by an avant-garde infrastructural department that is well-fitted with modern machines & technologies. In order to execute business operations very perfectly, we have segregated our infrastructure facility into assorted units like manufacturing, quality control, R&D and warehousing & packaging. Supported by our team of highly talented personnel, our state of the art infrastructural department makes us capable to undertake bulk & urgent orders of the customers & complete those in an efficient way within pre-defined time period.

Our Vision

Om Sai Platers is committed to consistent development. Thereby building a stable, global institution - with the resources to deliver the products as per customer's requirements. We offer unparalleled value to create customer delight and enhance business productivity.

Our Mission

Striving to be a leader in our field by making innovative products with superior quality, collaborating with customers to reduce costs and build basis for mutual collaboration, and intensifying our efforts towards ongoing financial stability and profitability.

Our Team

In today's competitive world, we enjoy a privileged position due to the hard work and dedicated efforts of our team members. These professionals work in sync with each other in order to come up with exclusive Plating and Polishing. We recruit these professionals on the basis of their educational competence, knowledge level and domain expertise.

Our professionals are familiar with the functioning of machinery installed at our infrastructure, which helps us fulfill bulk needs of the clients.
With the help of our professionals.
